

HAM MATAGE

DevOps Engineer

+254 723 171 982 | hammanham22@gmail.com | Nairobi, Kenya | [@hammanham](#)

PROFESSIONAL SUMMARY

Results-driven DevOps Engineer with hands-on expertise in designing and automating cloud infrastructure across AWS and Azure. Proficient in CI/CD pipeline development, container orchestration with Docker and Kubernetes, and infrastructure-as-code using Terraform and Ansible. Demonstrated ability to reduce deployment times by up to 40% while maintaining 99.9% uptime SLAs. Passionate about reliability engineering, cost optimization, and enabling high-velocity software delivery teams.

TECHNICAL SKILLS

Cloud Platforms	Amazon Web Services (AWS), Microsoft Azure
Containers & Orchestration	Docker, Kubernetes (EKS)
CI/CD & Version Control	Jenkins, GitHub Actions, GitLab CI, Git
Infrastructure as Code	Terraform, Ansible, AWS CloudFormation
Monitoring & Logging	Prometheus, Grafana, Splunk, ELK Stack
Scripting & Automation	Bash, Python
Security & Networking	VPC, IAM, Firewall Configuration, Encryption, HIPAA Compliance
Familiar With	ArgoCD (GitOps), Helm, Nginx, Apache, MySQL, PostgreSQL, Lens

PROFESSIONAL EXPERIENCE

DevOps Engineer • DR Financial Services *Houston, TX (Remote) | Jan 2025 – Apr 2025*

- ▶ **99.9% uptime SLA** Designed and maintained scalable AWS cloud infrastructure, achieving
- ▶ **40% by automating CI/CD pipelines using GitHub Actions, Jenkins, and GitLab CI** Reduced deployment times by
- ▶ Implemented Terraform-based Infrastructure as Code (IaC), standardizing provisioning and improving deployment consistency across environments.
- ▶ **Prometheus, Grafana, and Splunk, enabling proactive incident response** Built real-time infrastructure monitoring dashboards with
- ▶ Collaborated with cross-functional engineering teams to streamline DevOps practices and reduce mean time to recovery (MTTR).

Cloud & Infrastructure Engineer • iCare Medical *Pearland, TX (Remote) | Jun 2024 – Jan 2025*

- ▶ Managed and optimized multi-cloud infrastructure (AWS + Azure) supporting production healthcare applications.
- ▶ Containerized applications using Docker and deployed on Kubernetes (EKS), improving scalability and resource efficiency.
- ▶ Built automated backup and disaster recovery workflows, significantly improving data resilience and RTO/RPO targets.
- ▶ **30%** Accelerated CI/CD delivery pipelines, improving team deployment speed by
- ▶ Ensured HIPAA compliance through secure cloud configurations, IAM policy enforcement, and access control audits.

EDUCATION

Bachelor of Information Technology

Karatina University, Kenya | *Expected Graduation: 2027*

PROFESSIONAL INTERESTS

Open-source contributions • Cloud computing & serverless architectures • Cybersecurity & ethical hacking • Technical writing & DevOps blogging • Continuous learning in emerging tools and languages
